

**NO ONE IS BEYOND
GOD'S REACH.**

During the last few years, the worship team has been developing an online presence through live-streamed services broadcast on YouTube. By the end of 2024 the amount of people viewing these broadcasts exploded and since the start of 2025 we are now averaging over seventy viewers of the weekend worship services.

Our Worship Director Brandon Mazenko (pictured above with Brittney Pisano) has gotten all the necessary equipment for these broadcasts and demonstrated a remarkable skill in putting the electronic components together along with marrying it to the internet. Currently filming is done using two cameras. The services can be viewed either live or later, on YouTube.

Over 4,750 people viewed our worship services on YouTube during 2024. The Christmas cantata alone had over 200 views. When you count views, take in mind that this is the number of computers that signed on to watch. There is no way to know how many people were actually watching each computer viewing the service.

Currently the Saturday night contemporary worship service at 6:30 p.m., the Sunday morning worship service at 10:30 a.m. and the Wednesday night Bible Study at 6:30 p.m. are available every week.

There is a cell phone that is monitored live during the services in case anyone wishes to call for salvation or help and is available during the week to leave messages and/or texts so someone can call back. It is managed by the Deacons and the number is (928) 715-8296.

Click on the "YouTube" connection on our home page for a look at what's available.
